

To The Chairman  
KEIFCA  
Paragon House,  
Albert St,  
Ramsgate  
Kent  
CT11 9HD

As stakeholders in the KEIFCA Fisheries I/We Clive Browne – Brownes Marine the undersigned, have read and support the basic framework that the Thames Estuary Fishermans Association have put forward as requested by the Chairman, which I/We attach for the avoidance of doubt.

It is clearly evident the need for clear concise individual questionnaires that separate the 3 different fisheries used in all parts of the consultation process moving forward to avoid the total confusion that has been evident in the former parts.

We have been supplying the 4 companies listed below with all kinds of equipment and services for all of their vessels, in many cases for 10 years plus. The destruction of this fishery will severely impact my business, which has already been decimated by the Pandemic and Shutdowns

We 100% wish for our cockle fisheries to remain available to only the local fishers within the KEIFCA district

New Jamaica

Small Scale fishery

CFFPB ( Permit Fishery)
